### **DETAILED ACTION**

Newly presented claims 33,34 and 35 require this application to be divided as follows:

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4,8-10,16-18,24,26, drawn to a commercial transaction process, classified in class 705, subclass 34.
- II. Claims 33,34, 35 drawn to personal profile matching, classified in class 705, subclass 26.

The inventions are distinct, each from the other because:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as an online dating service whereby the commercial transaction facilitated is marriage.

See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
